People can't unlock any achievements. That's serious, means you dev guys made this just in the "helter skelter" state and show no respect to players.

Please show us your attitude of solving the problem, or I won't change my review here.. Despite its short length and bad graphics Lugaru has a great combat system and an interesting story.. Very enjoying to play, makes you think and use your head a bit but i had to stop playing as my game crashed every 3 mins due to not enough space error or i had to completely resart a mission due to an error whle loading a file. Very dissapointed i cant play the other 12 mission :( . Christmas gifts in this package. 76% OFF! ----- ???

Merit x1800 ----- Oh yah!! :)

Unlock the Shark Paint for all your DD, CL, CA and BB. ---- eh?

only good thing here are the merits :). a verry cool tower defens game :D. A complex and intriguing story, beautiful sprite/CG art, and real erotic heat mostly make up for weak background art and (especially) an awful translation. Studio Pieplus: please, please, please have a native English speaker edit your next translation! It's not just that the language is stilted; there are places where the translator wrote literally the opposite of the meaning of the original line. You're asking too much for this game to offer something so unprofessional in this respect.. Unless you plan on playing this game with a controller instead of keyboard and mouse... then dont bother buying it.. I was gifted this game by a friend, but I was going to buy it anyway. I absolutely love this! It has a decent challenge to it. Lots of fun puzzles and things to search/find. The dodge roll seems useless as♥♥♥♥♥on a bullfrog but hey, the games no less amazing for it. My only real gripe, if it even counts as a gripe, is the music. While fitting, it gets super repetitive and FAST. But...maybe thats the way it was intended, perhaps making us all a little mad... you cheeky devs!! Loads of unlockables it would seem. My friend and I were playing at the same time, I found a character to unlock in a stage he had just been through, while he never found said character. Love love love it!

If you like roguelike games with gorgeous pixel art, buy this now. Don't wait for it to come out of early access, ya cheap bastards! Just do it. Ph'nglui mglw'nafh Cthulhu R'lyeh wgah'nagl fhtagn

before we get into this like many other reviews i have been playing this when it was a browser game when i was around 10-12 when making accounts was free and then another company bought the rights to the game and i lost all my progress i got like 4-5 skins then lost it coz of the stupid verification steps and 12 year old me did not understand it and gave up it was fun while it lasted, anyway i bought on steam and i was like this should be a good one, i was correct it was a good game but i wasn't having as much fun as i thought i would have so i refunded but if you're like 10 or so and dont like fortnite but want some cartoon type FPS game like 12 year old me then this game is perfect 10V10

if you're a teen and like real FPS better off getting a gaming PC and getting Battlefield and COD.. Worth the 2,50€. The only reason my review is negative is because of the multitude of bugs we encountered. The main being a terrifyingly loud beeping sound followed by a bsod for the game after entering a room shortly after taking the key from the corpse. I'd actually like to see the developer do this game justice and continue to work on this game. Whereas I normally trash games like this, I actually see potential here. I'll advise any way I can.. Is A Beautiful Game

I'm Really Enjoy It

Hope Can See More Like This Game In Future. Great little adventure game that reminds me of the old glory days of Sierra adventure games. My only complaint is that I just wish this game was longer! I can't wait for the sequel to this and Quest for Infamy by the same company!. Ok, not more worth then 5 dollars. Enough said.. Just amazing!

I spent a lot of time playing the first version of this game on my mobile phone. I expected that this game will be looked like the first version with more levels, more kind of weapons and more kind of enemies but I was wrong. Developers could save all the best from first version and made the game more better.

Also I want to say "Thanks" to the DG Company for the low system requirements.. This is an unusual entry in the Luxor series of "match-3" action/puzzle games. For some reason, they gave away the classical Egyptian graphics for very tacky, ugly neon line drawings and a much more arcade-like theme and gameplay.

This doesn't work very well and it's really a retrograde step. Furthermore, even though the game hit Steam in 2012, there's no widescreen in-game. Can't recommend.. Good game, only comes with one map unless you want to pay for the DLC's but it's still great to play with friends.

Some of the puzzles aren't very obvious but the hint system makes up for it.. I find it an enjoyable little game.
